OUR COFFEE

Only contains the finest Arabica beans from Brazil, Nicaragua, Mexico, Guatemala and Ethiopia, for an intense flavour. The handpicked beans are grown more than 1,600 metres above sea level resulting in slower growth and more concentrated flavour. Low in caffeine, the beans are roasted in individual batches before blending, cultivated using rainforest standards.

HOT DRINK ALLERGIES & INTOLERANCES: We offer milk free substitutes at our venues however, due to the automation used in our freshly ground bean to cup coffee machines we cannot guarantee that traces of milk and milk protein are NOT present within our hot drinks. If you suffer from a MILK allergy or intolerance, please speak with a member of our team or make your own informed choice at the time of ordering.
